Additional Information

Do not bring laptops, TVs, stereos or lots of money. If you bring cell phones/iPods you may not use them at the work site. Although we do the best we can, we cannot ensure the security of any valuable items at the center.

Laundry facilities are NOT available so bring enough clothes for the entire week

Expect a week of dirt, sweat, paint and tar. Do not pack your favorite shirt or best jeans for work.

Sweatpants, shorts, half shirts, halter tops are not allowed at the work site. All clothing worn at the center must be modest (i.e., no short shorts, halters). Apparel may not display beer/alcohol slogans or obscenities.

How to Pack

Pack two bags: a bag for the week, and an overnight bag for the trip down Saturday and Sunday.

Use a soft duffle bag for your week-bag--no hard-sided suitcases. You will bring your week-bag to Jesse Lee Friday evening before the trip. Make sure that you check in with your crew leader and place your week-bag in a van labeled as going to the county you are assigned. If your bag goes to the wrong county, it cannot be retrieved.

Be sure you have everything in your overnight bag that you will need for Saturday night and Sunday--sleeping clothes, fresh clothes for the morning, tooth brush, deodorant, and so forth. You will not have access to your week-bag until you arrive at the center on Sunday afternoon.

Bring a Lunch

Be sure to bring a lunch that you can eat on the way down Saturday. We stop at a rest stop for lunch, where there is no place to buy food.
